Orchard NURSERY

Arriving in January!

Bareroot Fruit 2020

Save 20% by purchasing bareroot plants before December 1, 2019

Sizes listed are approximate unpruned heights. Trees can be kept to any desired height with summer pruning. See our Gro-Sheet Growing A Successful Backyard Orchard

Pollination - Fruit trees may be self-fruitful or may need cross-pollination with a different variety. We've indicated if a pollenizer is required.
Chill Hours - Fruits trees need a number of hours under 45^0 in order to produce a good crop of fruit. Central Contra Costa County typically receives 700-1100 chill hours, while warmer winter areas such as Oakland and Berkeley typically receive 400-700 hours.

Fruit Type		Variety	Size/Rootstock	Pollinizer?	Chill Hours
