

Because Life Should Be Beautiful™

# BAREROOT FRUIT 2019

Arriving in January!

Save 20% by purchasing bareroot plants before December 1, 2018

Sizes listed are approximate unpruned heights. Trees can be kept to any desired height with summer pruning. See our Gro-Sheet Growing A Successful Backyard Orchard

**Pollination** - Fruit trees may be self-fruitful or may need cross-pollination with a different variety. We've indicated if a pollinizer is required.

**Chill Hours** - Fruits trees need a number of hours under 45° in order to produce a good crop of fruit. Central Contra Costa County typically receives 700-1100 chill hours, while warmer winter areas such as Oakland and Berkeley typically receive 400-700 hours.

Fruit Type		Variety	Size/Rootstock	Pollinizer?	Chill Hours
ALMOND	\$39.99	199 All-In-One —Genetic Semi-Dwarf	10-12' on Marianna 26-24	Self Fruitful	500
