

Orchard Nursery's Bare root Fruit 2024

Bareroot fruit trees arrive in January. We put them in pulp pots for planting throughout the season. We hope to receive every variety listed, but some varieties may not be

available due to unanticipated supply issues.

Size- Mature sizes listed are approximate unpruned heights. Trees can be kept smaller with summer pruning. For more information, see out care sheet Growing a Successful Backyard Orchard.

Pollination- We've indicated if a tree needs cross-pollination with a different variety. If no varieties are listed, the tree is self fruitful.

Chill Hours are the number of hours below 45 the fruit tree needs to produce a good crop. Contra Costa County typically gets 700-1000 chill hours, while armer winter areas such as Oakland and

Berkeley typically get 400-700 hours. Citrus, avocados, and blueberries are not available bareroot.

Fruit type	Variety	Price	Item#	Size	Rootstock	Pollenizers /Notes	Chill Hours
Almond	All-In-One	\$69.99	199-br	10-12'	Mariana 26-24	SF, No. 1 almond for home orchards. Heavy crops of soft shell nuts with sweet, flavorful kernels. Hot summer required to ripen.	300-400

Blackberries							
Baby Cakes	dwarf, thornless blackberry perfect for patio pots with its compact habit. large, classic and sweet tasting berries present on the plant in a fireworks-like spray of fruit.						
Black Satin	Large firm berries 1.5" to 2", glossy black color fading to dull when ripe. Highly productive, semi-trailing vine with minimal suckering.						
Boysen	Very large berry up to 2.5", dark maroon in color with an intense, tangy, sweet flavor. Excellent quality with few seeds and a pleasant aroma. Vine-like trailing growth habit.						
Chester	small to medium sized berries are round, of an intense black color, with large seeds, and a good, mild flavor.						
Marion	Medium to large size, firm, sweet, bright berries. Excellent for fresh and dessert use. Rated by many as the best pie berry. Long harvest June through summer.						
Triple Crown	productive & vigorous growers, producing large, glossy black, firm fruits w/ a tasty blend of sweet & tart, berries are great for pies and baking. Seeds are smaller than those of wild blackberries.						
Raspberries							
Boyne	produces deep-red, medium-sized, tremendously flavorful berries. delicious sweet, aromatic flavor, making it an excellent choice for fresh eating, canning, freezing and desserts.						
Fall Gold	Large to very large golden berries of excellent flavor. Extremely sweet and soft textured.						
Heritage	Large, sweet, dark red berries. Mild flavor and excellent quality. Good for all uses.						
Meeker	large, dark red berries have a classic flavor that is unmatched by many of the varieties available today. Make wonderful juices, & are ideal for jams or jellies, freeze well, & can be thawed later.						
Raspberry Shortcake	Compact and thornless! Harvest light red berries with ease. Fruit flavor is sweet with a vanilla essence. No need to trellis or stake this plant. Sturdy canes give an appealing natural mound shape.						
Vintage	Vintage has extra large, conical, slightly rounded bright red berries with a high sugar content. This outstanding berry is super sweet.						
Willamette	Large to very large, long-conic berries. Very firm and deep red. Lower sugar content, slightly tart flavor. Good for all uses.						
Table Grapes							
Candice	Sweet, great grape flavor with a unique hint of spiciness. Easy-to-grow, with compact grape clusters 6-8 inches long. Bears medium-size, firm, red grapes that keep well on the vine. Seedless.						
Flame Seedless	Medium-sized, light red. Crisp, sweet, excellent flavor. For fresh use or raisins. Needs hot summer. Ripens before Thompson. Vigorous. 100 hours. Self-fruitful. Cane or spur prune						
Golden Muscat	American/European hybrid. Large, eggshaped berries are pale golden yellow when ripe. Characteristic European muscat flavor and aroma. 100 hours. Self-fruitful. Spur prune.						
Lady Finger	Large, elongated, light green thick skin, seeded. Valued for distinctive appearance and excellent tart-sweet flavor. Late season (fall) harvest. 100 hours. Cane or spur prune.						
Ruby Seedless	Dark red, sweet, crisp, excellent fresh or for raisins. Ripens after Thompson Seedless. Requires less summer heat than Thompson or Flame. 100 hours. Self-fruitful. Cane or spur prune.						
Suffolk	Russian seedless x American. Hardier than European grapes, less heat to ripen. Largest berries of the hybrids. Early, excellent quality. 100 hours. Self-fruitful. Cane prune						
Thompson Seedless							
Wine Grapes							

Cabernet Sauvignon	Late season red wine grape with small, black, strongly flavored berry. Vigorous, upright vine. 100 hours. Self-fruitful. Cane prune.			
Chardonnay	For white burgundy wines. Small round berry. Best quality where summers are cool. Vigorous vine, Very cold hardy. 100 hours. Self-fruitful. Cane prune.			
Merlot	Black berry, used for distinctive red wines. Best quality in cooler regions. 100 hours. Self-fruitful. Cane or spur prune			
Pinot Noir	Small black berries that yield the famous French Burgundy wines. Requires cool summers, cane pruning. Early harvest. 100 hours. Self-fruitful.			
Syrah	Syrah is a black grape variety that most commonly makes medium to full-bodied dry red wine.100 hours			
Zinfandel	For fruity red wines. Medium size, round, juicy, reddish-black berry, early midseason. Prefers mild winters, cool summer. Heavy bearing. 100 hours. Self-fruitful. Cane or spur prune
